◀ SeeHawk® *Reports*

Fast, Essential Reports for Cellular, WiFi and LMR Networks

You've tested your mobile network's coverage. Don't wait to see the results. With SeeHawk® *Reports*, you can generate printable, customizable reports from PCTEL® scanning receiver data within minutes of completing a drive or walk test. SeeHawk *Reports* even merges multiple data sets, simplifying multi-day benchmarking or site survey campaigns.

PCTEL

SeeHawk *Reports*

PRODUCT FEATURES

- Report KPIs for 2G/3G/4G/5G cellular, WiFi, P25, TETRA, DMR, NB-IoT, and LAA networks
- Report Spectrum Analysis (SA) and Enhanced Power Scan (EPS) measurements
- Merge multiple tests into a single report
- Filter by operator, channel, and technology
- Visualize with maps and optional distribution charts
- Automatically export reports to Word
- Create templates including thresholds, branding, and more
- Choose from permanent or cloud-based licensing options

BENEFITS

- Quickly generate reports from SeeHawk® T*ouch* and SeeHawk® *Collect* drive and walk test data
- Simplify reporting for multi-day benchmarking or survey campaigns
- Evaluate public safety radio coverage with uplink and downlink test data
- Generate separate reports for different clients or team members
- Submit JOTS (Joint Operations Technical Standard) compliant reports with 1st through 5th-best server plots

Solving Complex Wireless Challenges

PCTEL is a leading global provider of wireless technology solutions, including purpose-built antenna systems, Industrial IoT devices, and test and measurement products. Trusted by our customers for 29 years, we solve complex wireless challenges to help organizations stay connected, transform, and grow.
