

WALK TEST KITS FOR SCANNING RECEIVERS

**Convenient In-Building and
Outdoor RF Testing**

Bring the power and accuracy of PCTEL® scanning receivers wherever mobile devices are used. PCTEL walk test kits are a convenient solution for testing single- and multi-operator deployments in indoor and densely populated areas including 5G, small cell, critical communications, and Distributed Antenna System (DAS) networks.

**PCTEL**
an Amphenol company

Walk Test Kits Include

- Carrying pack
- Cables
- Battery system
- mmWave antenna(s) (HBflex™ and select Gflex® kits only)
- Sub-8 GHz antenna(s) (Gflex® kits only)

▲ Gflex® Scanning Receiver with I-CBL-ANT-GPF

▲ HBflex™ Scanning Receiver with I-CBL-ANT-HBP-1F Kit

▲ IBflex® Scanning Receiver with OP412 Kit and Antennas

Walk Test Kit P/N	Antennas Included	Weight (including scanner)	Pack Type	Battery System Type	Spare Battery Kit P/N	Spare Battery P/N	Operation Time (new battery)	Charge Time
Gflex® Walk Test Kits (scanning receiver not included*)								
I-CBL-ANT-HBP-1F	1 mmWave 2 sub-8 GHz	15.6 lbs (7.1 kg)	Backpack with mounting poles	Hot swap dual-battery power pack	OP018-GF	OP020	5.5 hr	6 hr
I-CBL-ANTA-GPFMF	1 mmWave (amplified) 1 sub-8 GHz	15.6 lbs (7.1 kg)						
IND-CBL-GM	2 sub-8 GHz	15.1 lbs (6.8 kg)						
HBflex™ Walk Test Kits (scanning receiver not included*)								
I-CBL-ANT-HBP-1F	1 mmWave	17.8 lbs (8.1 kg)	Backpack with mounting poles	Hot swap dual-battery power pack	OP018	OP020	7.5 hr	6 hr
IBflex® Walk Test Kits (scanning receiver and antennas not included*)								
OP412	Not included	4.6 lbs (2.1 kg)	Backpack/sidepack	Hot swap dual-battery power pack	OP416	OP429	4 hr	6.3 hr

*Scanning receivers and additional antennas sold separately.
