PCTEL® Certified Public Safety Tester Training

Master indoor grid-based coverage testing and become a PCTEL Certified Public Safety Tester in this interactive training course. You'll learn efficient methods for code-compliant testing and reporting that adhere to NFPA and IFC standards followed by local jurisdictions, using the PCTEL® Public Safety Network Testing Solution and SeeHawk® *Central* automated workflow management platform.

HANDS-ON EXPERIENCE, ONLINE OR IN PERSON

Online training includes access to videos covering the material in depth, plus up to two hours of personal online instruction from one of our experts.

In person training covers all material in one day. Check our regularly-updated schedule of events at pctel.com/ps-training-events for availability.

Both online and in-person training culminates in a personal test project. *You'll need access to an up-to-date PCTEL test kit and a laptop to complete the project.*

IMPROVE YOUR CAPABILITIES FROM PLANNING TO REPORTING

Understand grid-based in-building coverage testing methods and code requirements.

Plan and configure tests in advance using the SeeHawk® *Central* automated workflow management platform or SeeHawk® *Touch* software.

Execute tests with confidence, while gaining an understanding of the features and functions of your PCTEL scanning receiver hardware and SeeHawk *Touch* software.

Generate reports using SeeHawk *Central* or *Touch*.

Submit reports directly to public safety officials using SeeHawk *Central.*

BECOME A PCTEL CERTIFIED PUBLIC SAFETY TESTER

Completing the course and passing an evaluation leads to certification in the use of PCTEL solutions for 2 years.

Our certification is well received by jurisdictions across the country.

Company Listing

Certification includes the option for your company to be listed as a PCTEL® Certified Public Safety Tester on our website at
> pctel.com/pctel-certified-public-safety-testers/

ADDITIONAL TRAINING

Additional training options include re-certification training and BDA Commissioning Test Training.
